LOCI "Locativité et Interaction en Logique, Linguistique et Informatique" (ANR 2010)

Workshop IV

ONTOLOGIES AND LEXICAL SEMANTICS

Organized by
- LIPN, Université Paris 13
- Gruppo di ricerca in Logica e Geometria della Cognizione, Università Roma Tre

Rome, September 30 and October 1, 2011

"Casa San Bernardo", via Laurentina 289

Practical information sheet

Stay
Invited speakers will stay in the "Casa San Bernardo" hotel, where the workshop will be held.

Lunch
Both Friday and Saturday lunch will take place at the "Casa San Bernardo" restaurant. Attendees to the workshop are welcome to have lunch with us – the cost of the lunch is 20€ per person (not for invited speakers).

Venue

From Fiumicino – Leonardo Da Vinci airport the simplest and quickest way to go to "Casa San Bernardo" is by taxi. The ride takes about 20 minutes.
Taxi rides from the airport to the city centre cost a flat fixed fare (40€) which includes also the cost for luggage and applies to rides with at most 4 passengers aboard. Beware of other car / shuttle services which could apply different (higher) fares – be careful to board on a taxi of the "Comune di Roma": these are white, show a license number both in the car and outside, next to the rear numberplate, and you should read "Comune di Roma" somewhere on / in the car.
Since the "Casa San Bernardo" is not in the very city centre it could be applied the standard running fare whose cost will be shown on the taximeter in the car: it should normally be less than the flat rate since "Casa San Bernardo" is on the way to the airport (though you may have to pay 1€ luggage supplement for large bags and for additional bags after the first one per person).

Should you prefer to get into Rome by train, you may choose between a no-stop train to the Roma Termini train station in the city centre (Leonardo-Express, every 31 minutes, the ticket costs 14€) and a regular "many-stops" train (FR1, every 15 minutes – 30 minutes on holidays – which costs 8€). In this last case, you should get off the train at the Ostiense station and there commute on the subway line B, direction Laurentina terminus.

From train station Roma Termini you should take the subway line B (blue) in the direction of Laurentina and get off at the terminus Laurentina (subway and bus tickets cost 1€).

From metro B Laurentina station you have almost arrived but yet about 1 km away from "Casa San Bernardo". Here you can either:
- walk 1 km (see the map below)
- or get on a taxi at the taxi parking just in front of the Laurentina station
- or get on the bus 761 (every 12 minutes) in direction L.go Beato Placido Riccardi for just three stops (the subway ticket will be still valid).

The trip originates in the bottom part of the map (Nodo Laurentina) and goes upwards over the map – though the street actually goes downwards.

The dotted part of the marked route is to be walked; the red line is the ride on the bus 761 (3 stops).
